## SECTION 4: FIRST-AID MEASURES

**4.1 General Advice:** Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

**If Inhaled:** Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Call a physician if symptoms develop or persist.

**In Case of Skin Contact:** Immediately wash skin with soap and plenty of water for at least 15 minutes. Remove contaminated clothing. Get medical attention if irritation develops and persists. Wash clothing before reuse.

**In Case of Eye Contact:** Hold eyelids apart and flush eyes with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Get medical attention if irritation develops and persists.

**If Swallowed:** Call a physician or poison control center immediately. Wash out mouth with water if the person is conscious. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. If vomiting occurs, the head should be kept low so that

stomach vomit doesn't enter the lungs.

- 4.2 Most important symptoms/effects, acute and delayed:**  
No data available.

## SECTION 5: FIRE-FIGHTING MEASURES

- 5.1 Suitable Extinguishing Media:**  
Use alcohol-resistant foam, carbon dioxide, water spray, or dry chemical spray.  
Use water spray to cool fire-exposed containers.

Revision Date: 08/10/20; page 4 of 9

**Terpenes.net**

## Safety Data Sheet Blue Magoo Terpene Profile

- 5.2 Unsuitable Extinguishing Media:**  
Do not use a solid water stream as it may scatter and spread fire.
- 5.3 Specific hazards arising from the chemical**  
Static charges generated by emptying package in or near flammable vapors may cause flash fire. Fire may produce irritating, corrosive, and/or toxic gases.
- 5.4 Special protective equipment and precautions for firefighters**  
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Structural firefighters protective clothing will only provide limited protection. Wear self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode when fighting fires.
- Fire fighting equipment/instructions**  
In case of fire and/or explosion do not breathe fumes. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Water runoff can cause environmental damage. Ventilate closed spaces before entering them. Keep run-off water out of sewers and water sources. Dike for water control.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

- 6.1 Personal precautions, protective equipment and emergency procedures**  
Keep unnecessary personnel away. Eliminate sources of ignition. Use personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Avoid contact with skin or breathing spillage, vapors, mist, or gas. Ensure adequate ventilation. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. Prevent further

leakage or spillage if safe to do so. Do not let product enter drains.

**6.2 Environmental precautions**

Retain and dispose of contaminated wash water. Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water.

**6.3 Methods and material for containment and cleanup**

Eliminate all ignition sources. Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb with inert absorbent such as dry clay, sand, or diatomaceous earth, commercial sorbents, or recover using pumps.

The product is immiscible with water and will spread on the water surface.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Prevent product

from entering drains. Absorb in vermiculite, dry sand, or diatomaceous earth, and place into containers.

Small spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills in original containers for re-use. This material and its container must be disposed of as hazardous waste. Collect and dispose of spillage according to local regulations.

**SECTION 7: HANDLING AND STORAGE**

**7.1 Handling Precautions**

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Avoid prolonged exposure. Wash thoroughly after handling. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge. For precautions see section 2.

**7.2 Storage Precautions**

Store locked up. Keep cool and away from light. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

**SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION**

- 8.1 Exposure Limits**  
No data available.
- 8.2 Engineering Controls**  
Use in a well-ventilated area.
- 8.3 Personal Protective Equipment**  
Safety glasses. Face shield is recommended.  
Compatible chemical-resistant gloves.  
NIOSH approved respirator, as conditions warrant.
- 8.4 Chemical Hygiene**  
Wash thoroughly after handling.  
Contaminated clothing should not be allowed out of the workplace.  
Facilities should be equipped with eyewash and a safety shower.
